

Teresa Turner

I was born and raised on Kangaroo Island. As a young child I was influenced by both of my Grandmothers (Julia Turner Nee Buick & Ellen Williams) who were very clever women. The things that they made always fascinated me, so with these two amazing women in my life I learnt to create things. I started with crochet, by 15 I started using hobby text, then sewing, cooking, basket weaving, and flower arranging, I would do anything I could as long as I was making something.

In the 80's I attended a workshop called "Learning to use the right hand side of your brain" from this I discovered oil painting. Since then I have created Cartoon characters, portraits and painted on rocks. I have painted signs & shop windows and I have used all mediums pen & Ink, oils, acrylic, & pastels, I've even been known to use coffee. I have also painted over 1300 bottles for Trentham Estate Winery in Mildura.

After leaving KI I have lived in many areas of South Australia which has influenced my art. I have also spent two years doing my diploma in fine arts, where I have learnt that art has no boundaries.
